

Pet Supplies Plus launches Kitty City free-roaming cat adoption center in Bloomfield Hills

Published: Saturday, December 10, 2011

BLOOMFIELD HILLS — From the floor-to-ceiling window, to the miniature wing-back chairs, to the cat-size perches, the new Kitty City at Pet Supplies Plus in Bloomfield Hills is giving homeless cats something to purr about this holiday.

Kitty City, created by Bloomfield Hills Pet Supplies Plus store owner Addy Shattuck, is a free-roaming cat habitat that gives felines a place to lounge, watch birds at an outdoor feeder and mingle with other cats while hoping that someone will spot them, fall in love and take them home. The glass and screen enclosed open-air environment also enables humans to interact with the cats.

200 cats will be up for adoption from 10 a.m. to 9 p.m. Saturday, December 10 and 10 a.m. to 4 p.m. Sunday, Dec. 11.

Adopters get a free wellness exam for their cat or kitten provided by The Cat Practice of Birmingham, Michigan's first feline-only veterinary hospital. Adoption fee of \$59 includes spay or neuter, vaccines and health check. All cats are from Oakland Pet Adoption Center in Auburn Hills.

"The open environment lets the cats play and do what cats do while waiting for their real home," says Shattuck. They are so much more relaxed and content instead of being locked up. Customers love just to come in and watch the cats."

While the Bloomfield Hills Pet Supplies Plus has been adopting out homeless cats for years, Kitty City has already made a difference. Since opening just a few months ago, the store has already seen cat adoptions increase as shoppers are drawn to watching the antics of the felines through the window.

"Unfortunately, Oakland County has a huge overpopulation of cats" Shattuck said. "We are hoping that Kitty City will help more people see just how wonderful cats are as pets."

The Bloomfield Hills Pet Supplies Plus is at 2057 Telegraph Rd. For information, call 248-333-7545 or go to www.petsuppliesplus.com. Find the Kitty City grand opening on Facebook at <http://on.fb.me/r3uhVh>.

" Cats are destroying songbird populations across the world. They are very skilled predators. Feral cats are a health hazard, germ carrying scratching and clawing miniature vermin dangerous to people and animals alike.

I wonder if coyotes can help control feral cats? Anyone? "

" It would be far better to educate people about taking care of their cats, pass laws to severely punish people who abandon or harm their cats, and institute a spay/neuter program.

This is one Coyote who loves cats, but not for dinner. :) "

" And who will educate them? Who will pass the laws? Who will enforce the laws? And who will pay to spay and neuter these precious prolific profligate rascals?

"meow" "
